Subject: against bill 1094

Good morning, my name is Ben Maldonado. I am writing to voice my concern about bill 1094. This bill on banning magazines that hold more than 10 rounds is unconstitutional. Taking magazines away and then giving nothing back to replace the cost of these so called illegal magazines isn't right. Also the implications that gunowners that have these magazines in order to defend their homes against criminals are felons is ridiculous. This makes no sense. What will happen is that the law abiding, tax paying homeowner will be limited to a 10 round magaize meanwhile the criminals that don't abide by the law and don't really care about breaking the laws will have the higher capacity magazines. Again, this makes no sense. I really hope that this is well thought out before anyone would even consider to pass this. I strongly believe that there will be lawsuits brought against the state of Connecticut if this passes. Again you can't take something away that was legal at the time of purchase then pass a bill to make illegal and then expect the consumers of this product to be rid of it without some type of reimbursement. Lawyers will have a field day with this one. Lastly, I really hope that this bill is reconsidered and put aside. Thanks for your time.
